

ADEGO

ADEGO ROLLERS

Adego Roller is a unique new HDPE Idler-Roller product used in the mining industry and mechanically handling projects.

The main business practice of the company is to upgrade the conveyor and Idler-Roller systems and supply the best quality product at the right market price.

Strengths

- High resistance to wear by abrasion
- Very low friction coefficient
- Lesser mass, saving on startup costs
- Lessens noise pollution
- Will absorb higher impact force
- The product is eco-friendly
- The concentric design decreases vibration
- Long life performance
- Also available "Rock-Guard" roller with extra red sealing for extreme conditions

Available manufactured dimensions of ADEGO HDPE Standart Rollers

Tube diameter mm:

63,5, 89, 102, 108, 114, 125, 127, 133, 152, 159

Axle diameter mm:

20,25

Roller tube length mm:

200, 250, 280, 300, 310, 315, 380, 400, 410, 460, 485, 494, 500, 510, 546, 570, 596, 620, 645, 670, 698, 730, 750, 775, 810, 850, 880, 895, 975, 1004, 1085, 1156, 1195, 1308, 1460, 1612

Available manufactured dimensions of ADEGO HDPE "Rock-Guard" Rollers

Tube diameter mm:

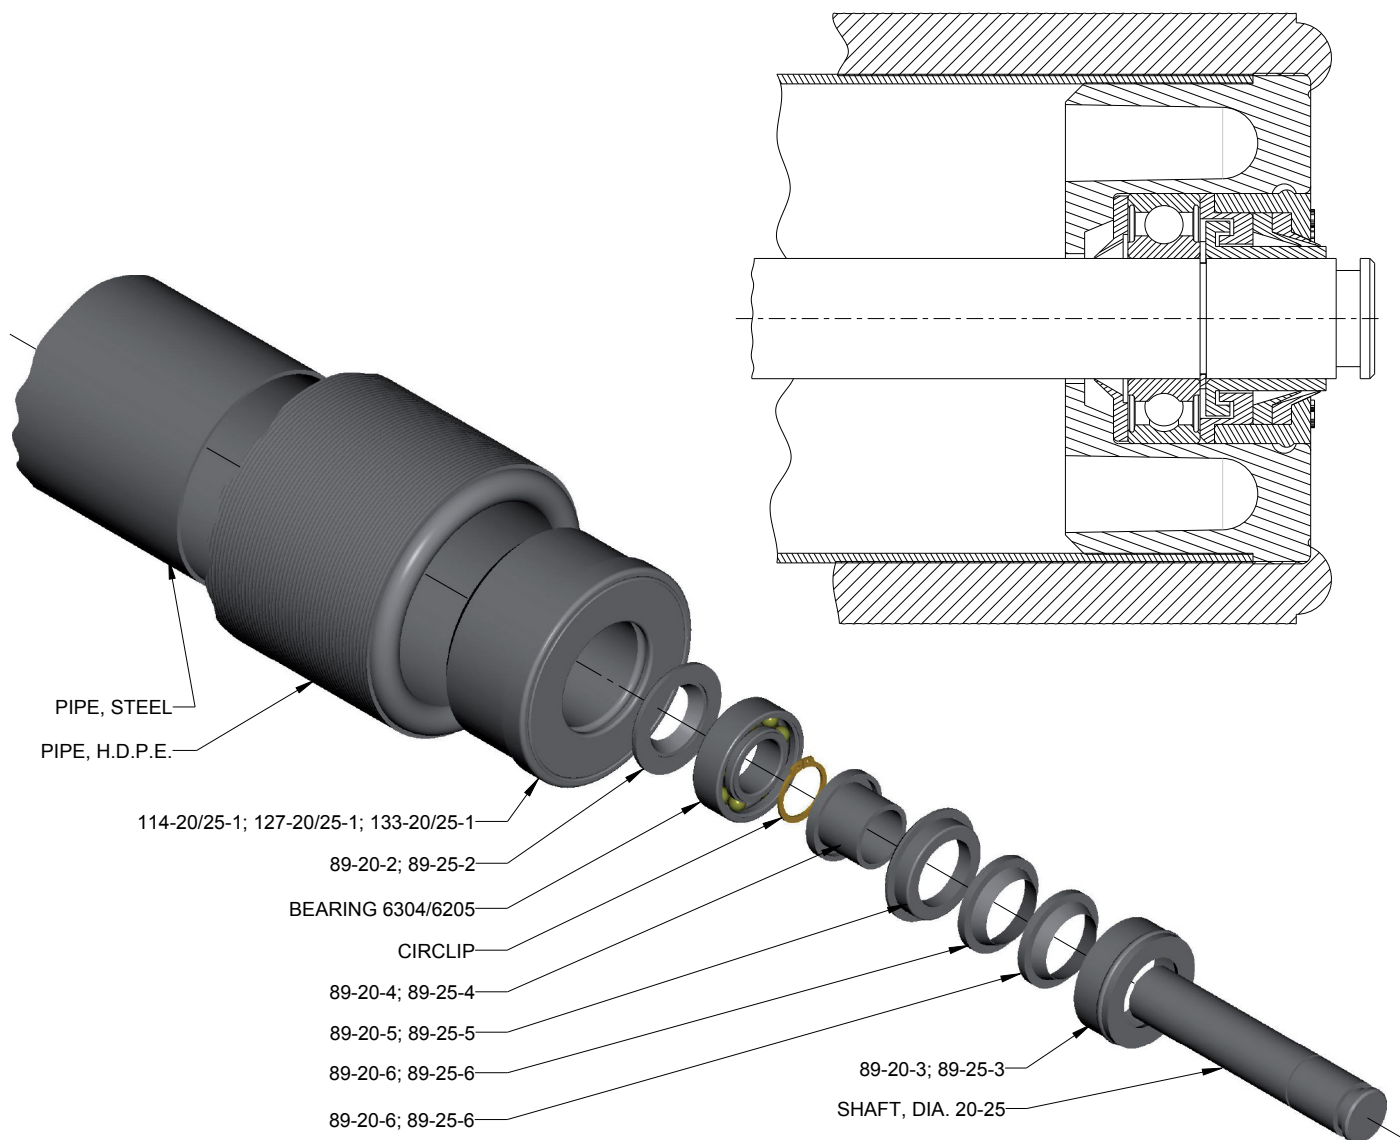

125, 127, 133, 152, 159

Axle diameter mm:

20,25

Roller tube length mm:

200, 250, 280, 300, 310, 315, 380, 400, 410, 460, 485, 494, 500, 510, 546, 570, 596, 620, 645, 670, 698, 730, 750, 775, 810, 850, 880, 895, 975, 1004, 1085, 1156, 1195, 1308, 1460, 1612
